

Joseph Aloko

Crafting Seamless Digital Experiences from Concept to Reality.

Relevant Experience

Integrations Developer - Claimsmate (**Scopic Software**) 2023 — Present

- Integrated OAuth 2.0 for secure API authentication with DocuSign services.
- Connected ClaimsMate with Stripe and QuickBooks using OAuth 2.0 for streamlined billing and invoicing.
- Developed customizable email templates for enhanced client communication.

Lead Frontend Developer - GoGo Salons (**Scopic Software**) Jul 2022 - Sept 2023

- Developed a user-friendly sign-in UI for easy customer registration and service selection.
- Implemented dynamic salon selection and customizable sign-in sheets for various salon needs.
- Created a real-time queue management interface with dynamic updates using Socket.io.
- Built an interactive ticketing system with drag-and-drop functionality and responsive tablet compatibility.
- Implemented intuitive data filtering and export functionalities for enhanced data management.

Developer - Drop Bears (**Scopic Software**) 2021 - June 2022

- Crafted a user-friendly and visually appealing interface for the NFT staking application.
- Utilized Web3.js to enable wallet connections and interactions with the Ethereum blockchain.
- Implemented functionalities to view coin balance, total earnings, claim rewards, retrieve NFT contracts, and manage staked NFTs.

Developer - ZSCOR (**Scopic Software**) 2020 - 2021

- Created an intuitive interface for the external welcome page and customer portal.
- Designed and implemented a dynamic dashboard for detailed reports and data visualization.
- Developed interactive forms for submitting cost data and an admin portal for managing platform data.
- Incorporated security best practices and optimized performance for data-intensive applications.
